

EDUCATION IS THE  
*Only solution to poverty*

## About Us

WeParivaar Foundation, an NGO for poor child education, is an NGO in Gajraula directly benefitting over 250 children and their families at present, through live welfare projects on education and healthcare

## Vision

Work as a catalyst in bringing sustainable change in the lives of underprivileged children, youth and women, with a life-cycle approach of development.

## Mission

WeParivaar, a non-profit organization in Gajraula is to empower underprivileged children, youth and women through relevant education, innovative healthcare and market-focused livelihood programs. WeParivaar Foundation is to deploy best possible methodology and technology for achieving ideal SROI (social return on investment), to practice and promote good governance. To link business competitiveness of the corporate with social development initiatives; also, to sensitize privileged children, youth and citizens in general to promote Civic Driven Change.

## Belief

WeParivaar Foundation believes that unless members of the civil society are involved proactively in the process of development, sustainable change will not happen. Believing in this principle of 'Civic Driven Change', WeParivaar Foundation sensitises the civil society in order to make them partners in its mission.

## Approach

WeParivaar Foundation working for child education believes that education is both the means as well as the end to a better life as it empowers an individual to earn his/her livelihood. It increases one's awareness on a range of issues - from healthcare to appropriate social behavior to understanding one's rights which ultimately helps him/her evolve as a better citizen. Education is the most effective tool which helps children build a strong foundation; enabling them to free themselves from the vicious cycle of ignorance, poverty and disease.

WeParivaar Foundation realized that Education for Children cannot be achieved without the family, particularly, unless the mother is assured of health care and empowered. Moreover, when an elder sibling is educated and relevantly skilled to be employable and begins earning, the journey of empowerment continues beyond the present generation.

## How We Started

On September 3, 2020, we started with 14 homeless kids, they were given 15 days classes on road side tents where they lived with their families. After 15 days we moved them to the school place. Within a month they had their own separate classroom and the results of our little efforts were amazing. These kids started showing exceptional skills with just weeks of training.

**First day picture when we met these kids.**

**The kids were focused and attentive during first class at the new classroom.**

**Picture taken after 15 days when we shifted them to a classroom.**

**Happiness is seeing the smile on a child's face as they learn.**

### Family Introduction

We Introduced the kids to our family members and organised their lunch at our home. Kids and our Family members blended with each other in no time

### Children's Day Celebration at WeParivaar Foundation

We started on September 3, 2020 and by 14 November, 2020 we had 109 students. Below is the picture of Children's Day Celebration with all beautiful Angels.

## Shoe Distribution Drive by WeParivaar

As the winters started, it was very easy to notice the kids without shoes and slippers in chilling cold. WeParivaar decided to start shoe distribution drive for such kids. Within four days more than 300 pairs of shoes were distributed to the children in need.

## Study Kit Distribution Drive by WeParivaar

WeParivaar has distributed over 700 study kits to the kids living in remote villages.

## Winter Clothes Distribution Drive by WeParivaar

Till date we have distributed over 2000 pairs of clothes new and old to the kids in need.

## Monthly Ration Distribution

WeParivaar takes care of monthly ration and other basic needs of 9 people living in an Ashram, these people were casted out of their homes by their own family members because they were suffering from some untreatable diseases

## English & Computer Classes for 8<sup>th</sup> 12<sup>th</sup> Standard

As the time passed by, we realized that Hindi medium school kids in our town had talent but they could not achieve much. Reason being they could not compete with English medium school kids because of poor English and Computer knowledge. To eliminate the difference, we started special English and Computer classes for UP board students of Gyan Bharti Inter College and Shiv Inter College.

We had students who were interested to join us but we needed a place to teach them. This was discussed with Mr. Rajveer Singh (Father of our director Ashok Kohli). The result of the discussion was that he agreed to give us 4000 Sq. Ft of area for constructions. With mixed efforts and financial support from Mr. Rajveer Singh and Mr. Anuj Saini the construction was finished within 1.5 months. After the construction was done, we started the classes and more than 120 students enrolled with us in just 20 days.

**Now they have regular classes on daily basis before and after school timings**

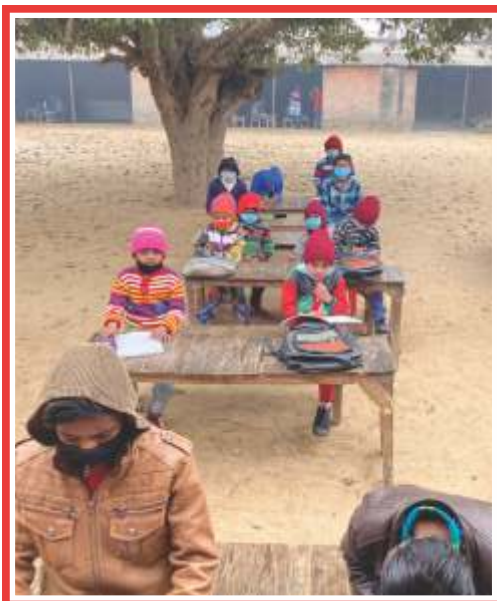

## School for Kids Class Nursery to 8th

Initially we started with 14 kids who are living under railway bridge in Gajraula. After 15 days of classes under the railway bridge these kids were transferred to a single classroom in Sardar Nagar Gajraula. The number of small class students started growing after that and it was a big challenge for us to fit them in a single classroom. Then one morning we received a call from Ms. Pushpa (Owner of Pushpa Aadarsh School) in village Allipur. She offered her school premises for our students.

The school was not in good shape but had basic infrastructure to teach our kids. We hired three teachers and the students were divided into three groups based on their knowledge and previous schooling. In a matter of days, we had more than 180 students. We provided them with basic stationary and started building the base to get them ready for schooling. Some of these students rejoined their previous school once the lockdown was over. Now we were left with approx. 110 students attending the classes regularly with us.

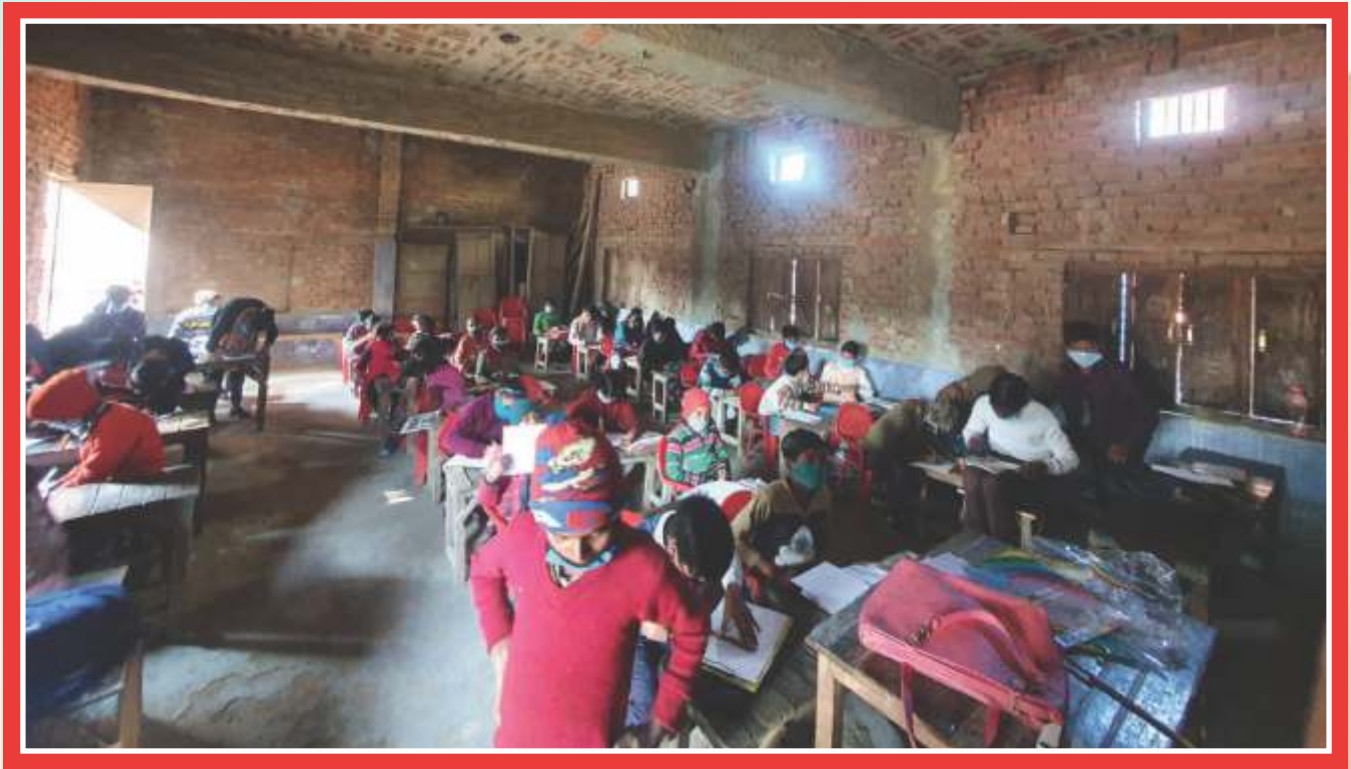

**The long term plan is to get these students ready for schooling and admit them to the schools suitable for them**

# Media Coverage

जबकि दुपयता नहीं, छापता है
